

SVE Residential O&M Select Services

Please call our office at 678.833.5191 for pricing information

System Health Assessment

- **Description:** Comprehensive evaluation of solar panel performance, inverter functionality, and system efficiency. Includes visual inspection and performance analysis.

Rodent Deterrent (Cost per Linear Foot)

- **Description:** Installation of mesh or other materials to prevent rodent access under solar panels.

Solar Panel Cleaning & Restoration

- **Description:** Removal of dirt, debris, and oxidation to restore panel efficiency. Includes inspection for damage or wear.

System Operations Education (30–60 Minutes)

- **Description:** Guidance on monitoring system performance, understanding energy production, and basic troubleshooting. Ideal for new solar system owners.

Surge Arrestors Installation

- **Description:** Installation of devices to protect the system from voltage spikes. Ideal for areas prone to lightning.

Electric Service Panel Circuit Locating & Labeling

- **Description:** Identification and labeling of circuits for easy reference. Ensures safety and compliance.

Gutter Cleaning

- **Description:** Removal of leaves and debris from gutters to ensure proper water flow. Prices may vary depending on home size and gutter length.

Window Cleaning

- **Description:** Cleaning of exterior window surfaces. Additional charges may apply for screens or hard-to-reach windows.

Drone Footage & Imagery

- **Description:** Aerial photography and video of the solar installation and property for documentation or marketing purposes. Pricing varies on location and complexity.
